

"Agility is a dance with a partner that doesn't hear the music" - Nick

So why a benefit Show - n - Go? I have accepted the daunting challenge of helping Dr. Knapp at the Purdue Small Animal Clinic control and cure canine bladder cancer. To that degree, I am now fundraising every chance I get. This is a great project to get behind. A unique package offering a day of learning and a day of play. All proceeds from the Show - n - Go goes directly to the "Purdue TCC Research Grant". In working with clubs around the country to keep costs down, my hope is to raise a sizable grant for research while playing with our dogs. The cost is \$5 per run for 2 minutes. There will be 4 classes starting with AKC Standard, CPE Jackpot, USDAA Jumpers and conclude with NADAC tunnelers. Show-n-Go's are the best way to practice and prep for the trial environment and cure cancer at the same time.

## THE AGILITY WEEKEND SEMINAR / SHOW-N-GO

How about offering club members an entire weekend of agility fun while supporting a worthy project. The Agility Weekend does just that. It combines my highly successful practical distance & course analysis seminar with a fundraiser show-n-go. All your club needs to do is bring the teams.

### PRACTICAL DISTANCE & COURSE ANALYSIS:

Sunday April 30th, I will be offering a 5 hour seminar focused course analysis and practical distance. Most people think of distance handling as "sending" your dog to the other side of the course. But practical distance is designed to place you where you need to be for the next set of obstacles. It is working away from your dog. And this pairs perfectly with finding alternative handling paths in course analysis. My seminars are about you and your dog helping with handling a better course.

NATCH 3

3 dogs - 3 CATCHS - 1 weekend

### SHOW-N-GO FUNDRAISER:

Show n Go's or "RunThrus" are a great way to prep for trials. These are trial-like environments where the handler can fix things or reward as needed within a 2 minute run. It is the best of all agility worlds. Added to that the great benefit of helping cure K9 bladder cancer, it makes for a perfect day. It is a birthday party so there will be food and cake and prizes. It's a party after all.

AKC Nationals

CPE Nationals

### WEEKEND SCHEDULE:

Saturday the 29th of April we will start at 9am with runs. There will be two rings - standard in one and jumpers in the other. Add to that the option of getting puppy portraits, brunch and cake. The runs are \$5 for 2 minutes. And let's not forget the raffle. All proceeds goes directly to Dr. Knapp's Bladder Cancer Research Grant.

MACH 2

"show me the course!"

Seminar info is thru Pawsitive Partners. Please contact Babs.

**When:** Sunday April 30. 2017  
**9:00 am – 3:00 pm**  
**Who:** Dogs who are competent on all obstacles, sequencing 15+ obstacles  
**Where:** Pawsitive Partners  
 5750 Elmwood Court  
 Indianapolis, IN 46203
